process

public abstract void process(Character m)

Interact with the given character mostly used to change its direction

Specified by:

process in interface Questionable

Parameters:

m - the character to interact with

isStepEnabled

public boolean isStepEnabled()

Check if the occupant can be stepped on

Returns:

true if the occupant can be stepped on

equals

public boolean equals(java.lang.Object other)

Check if the occupant is equal to another object

Overrides:

equals in class java.lang.Object

Parameters:

other - the object to compare to

Returns:

true if the occupant is equal to the other object

toString

public abstract java.lang.String toString()
